

Make your students **AI-ready** from Grade 8 to graduation.

A curriculum-aligned AI program for secondary schools and universities in Pakistan. Full-year course material, an LMS with sandboxed AI labs, and a choice of trainer-led delivery or Train-the-Trainer certification for your faculty.

THE FOUR STRANDS

01 — CURRICULUM

Full-year AI curriculum

Ready-to-teach, age-appropriate curriculum for a full academic year — foundations, tools, ethics, applied projects.

From PKR 10,00,000 / year

Institution license · full academic year

- Aligned with O/A Levels, Matric-FSc, HEC
- Refreshed each academic year
- Teacher notes + student workbooks

02 — PLATFORM

LMS & AI Labs access

Hosted learning platform + sandboxed AI labs. Prompt playgrounds, guided projects, submissions, faculty dashboards.

PKR 2,500 / student / month

Volume pricing above 500 students

- Sandboxed labs with guardrails
- Auto-graded checks & submissions
- SSO / roster import supported

03 — DELIVERED

In-class trainer

Our trainer delivers 1.5 hours of live instruction per class, per week, for a full semester — hands-on and project-based.

PKR 3,50,000 / class / month

Class capped at 40 students · semester engagements

- 1.5 hrs / class / week
- Hands-on labs and cohort projects
- Progress reports for leadership

04 — ENABLEMENT

Train-the-Trainer

Two-day in-person certification for educators and faculty, plus ongoing online support and community.

PKR 10,000 / educator

2 days in-person · additional trainings on request

- Teach-back assessment & certification
- Office hours & Slack support
- Refresher & advanced tracks

HOW IT FITS YOUR INSTITUTION

01

Discovery call

30-minute call with your academic leadership to understand cohorts, curriculum, and goals.

02

Pilot semester

Run one or two classes end-to-end — measurable outcomes in 12–16 weeks.

03

Full rollout

Scale to full year-groups with curriculum license, LMS access, and faculty enablement.
